

Custom fabrication & tuning

HT turbotech provides:

- Quality custom fabrication for exhausts, intakes, etc.
- Forced induction – HT designs and builds custom turbo applications for your vehicle with optimal output, OEM look, reliability and everyday drivability.
- Performance parts and tuning – add some fun to your Audi or VW and contact us and we can advise you on some mods that you might want to consider. We can source quality performance parts from manufacturers such as Eibach, Koni, AFE, Magnaflow, as well OEM Audi and VW parts.
- Engine swaps - we can source whatever engine you need and swap it into your vehicle with OEM look and reliability.
